COURTHOUSE SALOON.—This saloon, under the management of Mr. John H. Beecher, grows in popularity with its patrons. And so it should, for Mr. B. prides himself on the quality of his liquors, wines and cigars. He dispenses none but the best of these articles. Meals are also provided at the house at all hours. The public are invited to give him a call.

IN AND ABOUT THE CITY.

—Commissioner Sammons is in the city. —Justice Robinson is still confined to his bed.

—Next Thursday is the day of the great tobacco sale and fair.

—A jury for the county court has been ordered for Wednesday.

—Dr. Dunning, who has been unwell for a week past, is convalescing, and was upon the streets yesterday.

—Hon. M. J. Ince was in the city yesterday. Mr. I. may possibly be heard of at Carbondale on Thursday next.

—The Metropolis races are being talked up. Some very fast nags will, it is said, contest for the prizes offered.

—Dr. Wardner, as guardian of the Louis Jorgenson heirs, made his annual report to the county court yesterday. Judge Youm approved it.

—County Commissioners Halliday and Sammons met yesterday to hear objections to the assessment, and adjourned to Wednesday morning.

—The Egyptian Gun Club shoots to-day on the river bank, below the Narrow Gauge coal dump, instead of on the old grounds outside the levee.

—Mr. A. J. Dean, for twenty-one years deputy warden of the Ohio State Penitenti-

ary at Columbus, was in the city yesterday, the guest of Mr. Joe Cornick.

—Messrs. Tom Halliday and Hodges have returned from a flying trip through the county. They report the roads to be in an almost impassable condition.

—August 1st is the anniversary of the emancipation of slaves in the British West Indies, and preparations are being made here by our colored citizens to appropriately honor the event. At Caledonia the celebration will occur on the 3d of August, and Judge Bird and Mr. Scott are advertised to deliver addresses on the occasion.

—There was a fight at Louis Herbert's saloon on Commercial avenue, Saturday night, between three of our boys and three bill-stabbing artists connected with Old John Robinson's show. It was a terrific, purely, and Cairo succeeded in obtaining possession of the saloon. It is said to have been very lively.

—Through the error of the writer of the advertisement, the auction sale of household goods of Mr. Watson, was announced in Sunday's BULLETIN to take place on Friday next. It should have been Tuesday (this) morning. Mr. Tom Winter has everything in readiness and anticipates a good sale. Do not forget the time and place.

—In the county court yesterday, City Attorney McGee filed an application for the appointment of commissioners to ascertain the cost of constructing sidewalks and to equalize such cost between the public and the property benefited. Judge Youm appointed as commissioners Messrs. Tom Winter, N. C. Devore and Dan Galligan.

—Rev. Dillon Lee will leave to-day or to-morrow for Sheboygan, and will be absent five or six weeks. His many friends hope his vacation may restore to him good health, and will look for his return among them with pleasure. During his absence, Mr. H. A. Chace, who is a licensed lay reader, will read the services of the Church on Sundays.

—Green Neal, the negro whom THE BULLETIN readers will recollect as having stabbed the man Duffy, had a preliminary examination before Judge Bird yesterday, and was bound over for trial in the sum of \$500. No new facts were elicited at the trial. Duffy was brought from the hospital to the court-building in a wagon and returned in the same conveyance. We did our share with Mr. Neal to kill him, but he still survives and gives uninterrupted rein to the wicked tongue that is in his head.

—The Sun proposes to convert the custom house into a huge tenebrous establishment, by painting it and the fence surrounding it with stripes of red, white and blue, and we must confess that the suggestion is full of propriety and wisdom. Outside it would thus indicate the occupation of those inside who slave, shear and bleed the poor unsuspecting public whenever occasion offers. It is poor Republican human nature, however, and should be pitied rather than abused.

—The families of Mr. Tom Valette and Mr. F. D. Atherton, of Grobe Island, two children of Mrs. Wm. Holden, and the wife and two children of Mr. Jack Hodges, and others whose names we could not learn, attended the Fourth of July picnic at Hodges Park, and have since been taken sick, seriously in two cases, with cramps in the stomach and other symptoms of cholera morbus. Ice-cream made in brass or copper lined freezers is supposed to have produced the sickness.

—The parties to whom we referred as being red ribbonites who had broken their pledges, have not, it seems, been members of the club for three months in one instance and five in another. Although they have been dropped from the rolls of the club, they are still remembered in the hearts of its members, and when they shall have repented of the errors of their ways they can again find a haven of rest for their troubled spirits in the all-embracing goodness of the order. Somebody somewhere sinned ever so many times, but was finally saved. Brothers—pause, reflect.

A couple of the members of the "art preservative" thought a skill ride on the bosom of the beautiful river would be an excellent way to work off the effects of the enthusiasm which overcame them on the Fourth. Consequently, on Saturday last, they launched a frail bark into the waters and shoved off from shore to enjoy the ride. A storm came up, a drenching rain fell, the gentlemen lost their oars, and in this situation, a couple of hundred yards from shore, they became the toy of the elements, and would have probably been very moist bodies by this time if some sympathetic beholder had not gone to their rescue. Men who cannot navigate on land should never tempt the fortunes of the stormy deep.

—The following is a list of letters remaining unclaimed for at the Cairo Post-office, Saturday evening, July 6, 1878: Bailey Fannie; Bullett Jane; Brown Mary; Carr Lucinda; Glasgow Cressy; Hyler Kate; Hunter Annie; Hennagan Kate; Jackson Helen; Jones Catharine; Lary Maggie; Mary Hattie; Repp Mrs.; Smith Manie; Shetter Annie; Smith Hattie; Taylor Nettie; Williams Annie; Williams Martha; Allen W. —It is admitted on all hands that a woman's curiosity is unbounded; but some ladies, eminent for their wisdom, have asserted that man surpasses woman in this trait of human weakness. We propose to stand by our sex, and give an illustration that will forever place the matter beyond dispute in this community. In Judge Bird's court yesterday, during the progress of a civil suit, a witness was asked the Christian name of his wife. He paused a few moments, looked at the court, his countenance betrayed the confusion of his mind, and said: "Well, I am not sure, but I think it is Hannah; if the court will allow me I will step across the street and find out." The court did allow him, and after returning from his journey reported that he had been mistaken; "it was not Hannah, but Magdalena." He had been married to his wife over one year. Now we put it to any sane person—man or woman—whether the wildest imagination could conceive of a case wherein a woman would live in ignorance of the name of her lord for one year, while it was within the range of possibilities for her to have found it out. The man is an honor to his sex, and is entitled to their gratitude for his vindication of them.

IS MEDICINE A SCIENCE?—As generally understood, science consists in deducing facts from theory, and as the mathematician requires a knowledge of one factor in order to determine the value of unknown factors, so medicine, when practiced as a science, demands a knowledge of one or more facts, upon which to base its calculations. Understood and practiced in this way, the blunders of guess-work are avoided. In preparing his now popular family medicines, R. V. Pierce, M. D., of Buffalo, N. Y., devoted much time to the careful investigation of the several classes of diseases for which his remedies are prescribed as specifics. Their unparalleled success attests in arguments stronger than words, the Doctor's skill. His Golden Medical Discovery is unsurpassed in curing diseases of the throat, lungs, liver and blood; while the Favorite Prescription is sold under a positive guarantee to cure those diseases and weaknesses peculiar to women. No remedy yet known equals Dr. Pierce's Compound Extract of Smart Weed in curing dysentery and kindred irregularities of the bowels. Over one hundred thousand copies of the People's Common Sense Adviser have been sold. Price \$1.50, postpaid. Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

OUR COUNTY ROADS.

THEIR DEPLORABLE CONDITION—WILL THE MERCHANTS MOVE IN THE MATTER?

The condition of the roads in the county leading into Cairo are reported by gentlemen who have recently traveled there to be in a wretched condition, and wonder is no longer expressed that the trade in the county which of right belongs to Cairo goes elsewhere for the reason that access to us with teams is almost impossibility. We have been informed that the matter has been once broached before the "Taxpayers' Association," but was allowed to die out almost with the spirit that gave it life. The class of the community directly interested in this matter is the merchants, and it seems to us that a little agitation and a little work on their part would soon create a public sentiment which would insist upon having good roads, and once having them, see to it that they were kept in good repair. There will be no reform in the present condition of affairs until the merchants take the matter in hand.

WANTED.—Every one to be free from Pimples, Blisters, Boils, etc., which can be done by purifying the blood with Dr. Bull's Blood Mixture. Used everywhere.

LIVER IS KING.—The liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system are all immediately connected with the workings of the liver. It has been successfully proved that GREGG'S AUGUST FLOWER is unequalled in curing all persons afflicted with dyspepsia or liver complaint, and all the numerous symptoms that result from an unhealthy condition of the liver and stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the western continent. Three doses will prove that it is just what you want.

THE COUNTY PRINTING.

A FEW HARMLESS REMARKS UPON A NOT VERY INTERESTING SUBJECT.

The election blanks which were recently ordered from Danville by the county authorities, and which were found unfit for use, have been replaced by others borrowed for the occasion, or ordered from another foreign firm. There are supposed to be three printing offices within the limits of Alexander county, either of which could, perhaps, do the work, but they do not seem to have any existence in the official mind at the court-house. At the risk of being considered impertinent, we state it as a fact that the three offices referred to give employment to about forty or fifty persons who have their homes here; the offices directly and indirectly also pay a fair share of the taxes which go to support the county government, and we think it is no harm to suggest that they should be considered, and at least given an opportunity to bid for work of this kind needed by their own people. Let us hope this harmless suggestion will give no offense.

Don't forget the Idlewild excursion to Columbus and return on Saturday next, July 13th, will leave Cairo at 7 p. m., and return at 12 sharp. Will lay at Columbus 30 minutes. A good string band on board. Fare, round trip, \$1.00. For details inquire of Jas. Biggs, Ticket Agent.

A SECRETION THAT CONTAMINATES THE BLOOD.—When the bile is diverted from its proper channels, into the blood, which is always the case in liver complaints, it ceases to be a healthy secretion, and becomes a poison. Its abnormal presence in the circulation and stomach is indicated by the suffusion of the skin with a hideous saffron tinge, by headaches, vertigo, nausea, pain in the right side and under the right shoulder blade, by indigestion, obstruction of the bowels, and other minor symptoms. Order may be substituted for this state of chaos, and further bodily evil averted by using the beneficent alternative and tonic, Hostetter's Stomach Bitters, which, by relaxing the bowels, promotes the escape from the circulation of bilious impurities; besides rendering the action of the liver regular, and removing every trace of dyspepsia. This pleasant and purely vegetable anti-bilious medicine is not only infinitely more effective than any form of mercury, but is on account of its freedom from hurtful properties, infinitely to be preferred to that poisonous drug.

THE LATEST WONDER.—Lee's Family Measuring Glass. Practical, useful, convenient! It weighs rice, tapioca, farina, sugar, currants, arrowroot, sugar, flour, butter, etc., by the pound or fractional parts of a pound. Measures liquids from 1 ounce to 1 quart. Teacups, standard measure, from 1/4 to 3 cups. Call and see it. For sale at No. 30 Eighth street (Shelley Buildings), Cairo, Illinois. Local agents wanted in every county in Southern Illinois, Western Kentucky and Southern Missouri. Call on or address to the above direction.

PROVISIONS.

QUESTY.—Why will men smoke common tobacco when they can buy Marburg Bro's "Seal of North Carolina" at the same price?

LETTIE COLEMAN'S LAUNDRY.
Mrs. Lettie Coleman has reopened her laundry on Fourth street, between Washington and Commercial avenues, and takes this method of informing her old friends and patrons that she is again at their service, and solicits their patronage. She has reduced prices to suit the times.

THE MAN WHO SMOKES.

PRICE BISMARCK WEDDED TO THE PRAGMATIC WIFE.
Prince Bismarck transacts most of his business with a cigar in his mouth, and in the memoirs of Herr Maurice Busch, his secretary, may be found a characteristic anecdote of how this Prussian statesman claimed and enforced his privilege of smoking at the sittings of the military commission of the diet at Frankfurt. The story is given in the chancellor's words: "While Rochow represented Prussia at the diet, Count Rechberg, the president, who represented Austria, was the only member who smoked at the board. Rochow, who was a great smoker, had often longed to light a cigar, but did not dare. When I arrived, however, I asked myself why Prussia should not do as Austria did! So at the first sitting I drew out a cigar and asked Rechberg for a light, which he gave me, stupefied at my coolness. The other delegates were not less amazed, and wrote to their respective governments for instructions; but the subject was a serious one, requiring reflection, so six months elapsed without their obtaining an answer. Meanwhile Bothner, the Hanoverian, who was a great friend of Rechberg, took the liberty of lighting up, to be even with me, seeing which the Saxons, Nostitz, produced a cigar to stand equal with him. There remained now only the delegates of Wurtemberg and Darmstadt, but these two were not smokers. What was to be done? Could they let their colleagues blow clouds in their faces without blowing back. The Wurtembergers were the first to decide that the honor of his country was involved, and he brought out a cigar in his turn. I think I can see it now—an undimmed cigar, pale yellow, thin, tapering, and enormously long. He smoked it bravely, with all his might, and almost to the stump, thus giving a magnificent example of devotion to his country."

No species of falsehood is more frequent than flattery; to which the coward is betrayed by fear, the dependent by interest and the friend by tenderness.
